Subject: RE: Fridge / Freezer move

Helen,

Hi. I was over at the building this morning and spoke with Maria about the freezers. She showed Dick Nathhorst, Toby Brown (our contractor superintendent) and me the two units that are moving over to room N224, and explained that the telephone line to the alarm system had been disconnected. Jim Hanchett was also there, and apparently he would like to nab one of the other wide refrigerator units, provided that he can find space for it.

We are planning on Toby moving the two units down the hall to N224 on Tuesday, July 13. Prior to that, on Monday, we will confirm that the electrical outlets in N224 are the 20 amp outlets that are required. Maria asked that Toby also move one wood bookcase and a pamphlet rack that was too heavy for them to move themselves, and he agreed to do that. We will also move the alarm unit that the refrigerators/freezers are connected to. Since the Verizon line was shut down, Maria assured us that the alarm would not be signaled when we shut the units down for moving.

Maria placed the biological that were in the refrigerator into an adjacent one while we were there, so the units that are moving are empty. Once they are set up in their new location, we will ask that the contents be moved back – that should be done by you or your staff, presumably. Maria said that she may have the biological held at the University Health center or Amherst Public Health to get them completely out of the way.

I placed hand-written notes on each of the refrigerators to indicate where each unit was to be moved – the only question being the one that Jim Hanchett would like to grab.

Let me know on Monday if you see any other issues with clearing out the old spaces. And thanks for helping with this – we sincerely appreciate all the work you and your staff have done to make this happen.

Thanks,

Burt

Subject: Fridge / Freezer move

Helen,

I got approval from Beth English to relocate the fridge and freezer into room N224. Burt Ewart the PM for the vivarium project will be contacting you regarding getting the units moved. I will be on vacation starting this afternoon and through next week. I will have my cell if you need to reach me.

Thanks,

Stephen
